```
graph BT; A["SourceCatalog/src/lib/TableRowAttribute.cpp"] --> B["SourceCatalog/SourceCatalog/SourceAttributes/TableRowAttribute.h"]; C["SourceCatalog/src/lib/TableRowAttributeFromRow.cpp"] --> B;
```

The diagram illustrates a file dependency structure. At the top is a header file box labeled 'SourceCatalog/SourceCatalog /SourceAttributes/TableRowAttribute.h'. Below it are two source file boxes. The left box is labeled 'SourceCatalog/src/lib /TableRowAttribute.cpp' and the right box is labeled 'SourceCatalog/src/lib /TableRowAttributeFromRow.cpp'. Two blue arrows point from the bottom of each source file box up to the header file box, indicating that both source files include the header file.
