

Euclid::Configuration
::CatalogConfig::getTableReader

```
graph LR; A[Euclid::Configuration::CatalogConfig::getTableReader] --> B[Euclid::Configuration::Configuration::getCurrentState];
```

The diagram consists of two rectangular boxes connected by a blue arrow pointing from left to right. The left box has a light gray background and contains the text 'Euclid::Configuration' followed by '::CatalogConfig::getTableReader' on the next line. The right box has a white background and contains the text 'Euclid::Configuration' followed by '::Configuration::getCurrentState' on the next line, with 'State' centered on the line below.
