

Euclid::Histogram::  
BinStrategy::getBinEdges

```
graph LR; A[Euclid::Histogram::BinStrategy::getBinEdges] --> B[Euclid::Histogram::BinStrategy::getEdge]; A --> C[std::make_pair];
```

The diagram illustrates a function call sequence. A central box on the left, labeled 'Euclid::Histogram::BinStrategy::getBinEdges', has two arrows pointing to the right. The top arrow points to a box labeled 'Euclid::Histogram::BinStrategy::getEdge', and the bottom arrow points to a box labeled 'std::make\_pair'.
