

Euclid::XYDataset::
AsciiParser::getDataset

```
graph LR; A["Euclid::XYDataset::  
AsciiParser::getDataset"] --> B["std::make_pair"]; A --> C["std::vector::push_back"]
```

The diagram illustrates the function calls made by the `Euclid::XYDataset::AsciiParser::getDataset` function. It is represented by a gray rectangular box on the left. Two blue arrows originate from the right side of this box. The top arrow points to a white rectangular box containing the text `std::make_pair`. The bottom arrow points to another white rectangular box containing the text `std::vector::push_back`.

std::make_pair

std::vector::push_back
