

Euclid::NdArray::typeDescription

```
graph LR; A[Euclid::NdArray::typeDescription] --> B[std::vector::empty]; A --> C[std::stringstream::str];
```

The diagram illustrates the dependencies of the `Euclid::NdArray::typeDescription` variable. It is represented as a gray rectangular box on the left. Two blue arrows originate from the right side of this box. The top arrow points to a white rectangular box containing the text `std::vector::empty`. The bottom arrow points to another white rectangular box containing the text `std::stringstream::str`.

std::vector::empty

std::stringstream::str
